

Testimonials:

- We did it—we instituted your program for a “Compellingly Attractive Chapter.” Now, just six weeks later, WOW! The renewed energy of this older chapter has been extraordinary! Members have participated with more enthusiasm than we ever expected. This “fun energy” is widespread within the chapter and gives every indication that it will be permanent. Any barbershop group wanting its members to “own” their chapter could find no better method! Thank you for enhancing our musical lives! **Bruce Baird, Spartanburg, SC**
- Many members have told us that these are the best meetings we've ever had. We all agree we're getting more done and having more fun! We highly recommend Chuck Greene's workshop titled "Compellingly Attractive Chapter Meetings"--and his approach to chapter development--to any chapter, regardless of skills or goals! **Keith Hopkins, Winter Park, FL**
- The workshop was as well planned as any I've seen, ever—barbershop or professionally. The concept and his reasoning were appealing. It was fast-paced, logical, innovative, and participatory. It was an eye-opener for everyone. I highly recommend the program. It's a fresh approach to revitalizing our hobby. And it was a heck of a lot of FUN!" **Bart Van de Mark, Martin/St Lucie, FL**
- I have been a member since 1962 and for several decades have assumed that if I lived to be 90 I would be on hand when the Society "turned off the lights." I was thrilled by your Workshop on Chapter meetings because the material gives us a chance to ... "Save the Society." The 7 Deal-Maker value characteristics are an excellent measurement metric, the learning techniques are the best I've ever seen, the many tips on procedures are terrific, and the scripting approach brings it all together in an extremely positive way. **Dave O'Dwyer**
- Tacoma came back believers and have been really pumped ever since. We are putting EVERYTHING in place as fast as we can. Learned a new song the other night using the 40-minute method--wow! I have been a Barbershopper for 52 years, most of them in a leadership role, and I can say unequivocally your program is the best training in which I have ever been involved. Keep it up ! **Steve Mondau**
- I read your "60,000 Feet" treatise a few years ago. The workshop was everything I hoped it might be...and much more! **Paul Olquin, Portland, OR**
- I belong to the Greater Vancouver Chapter. One thing blew me away. But it **REALLY REALLY** blew me away and that was the entire package, which started from the sociological analysis of where we are today, and thoroughly and compellingly (there's that word again) drove that analysis right through to the specific practical measures needed to address that analysis. I am one of the most critical people I know, and I thought the presentation (including the information it contained) was a masterpiece. **George Gregory, Vancouver**
- Since we have started, attendance is way up. Every guest with a good voice becomes a member and the meetings fly by. Larry Reinhart [Music Director] bought in right from the start. We now have five assistant directors, and we're having a ball! **Dave McQueeney, Wilmington, NC**
- This workshop is far better than at least the last six COTS I've attended added together! **Paul Eastman, Palo Alto-Mountain View, California**
